Dr. Cole grew up in New England, Venezuela and South Florida. He is married and the proud father of three children. He is an enthusiast of many sports, and enjoys creative writing and landscaping. Dr Cole and his family are building a medical mission base in the Peruvian Amazon.

*Dr. Cole joined the University of Minnesota Physicians in 2002 to lead the expansion of Orthopaedic Surgery at Regions Hospital. He is Orthopaedic Section Head and Chief of Orthopaedic Trauma. He is well recognized for his work with minimally invasive fracture fixation techniques and has earned an excellent reputation for treatment of articular fractures and bone malunions. He is widely published and lectures extensively on complicated fractures and fracture complications. He has established a major clinical and research initiative, breaking new ground in the treatment and understanding of scapula and clavicle fractures.*
