

Regions Hospital Delineation of Privileges Anesthesiology

Applicant's Name: _____
Last First M.

- Instructions:
- Place a check-mark where indicated for each core group you are requesting.
 - Review *education and basic formal training* requirements to make sure you meet them.
 - Review *documentation and experience* requirements and be prepared to prove them.
 - ✓ Note all renewing applicants are required to provide evidence of their current ability to perform the privileges being requested
 - ✓ When documentation of cases or procedures is required, attach said case/procedure logs to this privileges-request form.
 - Provide complete and accurate names and addresses where requested -- it will greatly assist how quickly our credentialing-specialist can process your requests.

Overview

- Core I – General privileges in adult anesthesiology
- Core II – General privileges in pediatric anesthesiology
- Core III – Cardiothoracic anesthesiology
- Core IV – General privileges in obstetric anesthesiology
- Core V – Treatment of chronic pain conditions
- Core procedure list
- Signature page

CORE I — General privileges in adult anesthesiology

Privileges

Administration of anesthesia, including general, regional, and local, and administration of all levels of sedation to patients 16 years and older. Care is directed toward patients rendered unconscious or insensible to pain and the management of emotional stresses during surgical, obstetrical, and certain other medical procedures, including pre-, intra-, and postoperative evaluation and treatment and the support of life functions and vital organs under the stress of anesthetic, surgical, and other medical procedures.

The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

Basic education and minimal formal training

1. MD or DO or MBBS.
2. Completion of an ACGME, AOA, Royal College of Physicians and Surgeons of Canada, or Professional Corporation of Physicians of Quebec approved anesthesia residency program.
3. Current certification or active participation in the examination process -- with achievement of certification within 5 years -- by the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology.

Required documentation and experience

NEW APPLICANTS:

1. Provide documentation of performing 250 hospital anesthesia cases within the past 12 months;
Or
Demonstrate successful completion of an ACGME- or AOA-accredited residency, clinical fellowship, or research within the past 12 months.
2. Provide documentation of the number and types of cases performed in the past 24-months;
Or
Provide contact information for (1) the anesthesiology or surgery chair from applicant's primary hospital and (2) a physician peer whom the credentialing specialist may contact to provide an evaluation of your clinical competence to perform the privileges requested.

CORE III — Cardiothoracic anesthesiology

Privileges

These privileges are granted to physicians who are qualified by training to render patients insensible to pain and stress during surgical, obstetrical and certain medical procedures using general anesthesia, regional anesthesia, and/or parenteral sedation to a level at which a patient's protective reflexes may be obtunded. The performance of pre-anesthetic, intra-anesthetic, and post-anesthetic evaluation and management and appropriate measures to protect life functions and vital organs is required. Individuals performing techniques or interpreting results that may affect patient safety or well-being may have specific privileges granted on the basis of training and experience or demonstrated competence.

The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

Basic education and minimal formal training

1. MD, DO or MBBS
2. Successful completion of an ACGME, AOA, Royal College of Physicians and Surgeons of Canada, or Professional Corporation of Physicians of Quebec approved Anesthesia residency program.
3. Current certification or active participation in the examination process -- with achievement of certification within 5 years -- by the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology and successful completion of an accredited fellowship in adult cardiothoracic anesthesiology.

Required documentation and experience

NEW APPLICANTS:

1. Provide documentation of having performed at least 50 cardiothoracic cases in the past 12 months;
Or
Demonstrate successful completion of an ACGME- or AOA-accredited residency, clinical fellowship or research in the past 12 months.
2. Provide documentation of the number of cardiothoracic cases performed in the past 24-months;
Or
Provide contact information for (1) the anesthesiology or surgery chair from applicant's primary hospital and (2) a physician peer whom the credentialing specialist may contact to provide an evaluation of your clinical competence to perform the privileges requested.

CORE V — Treatment of chronic pain conditions

Privilege	
Treatment of chronic pain conditions	
Basic education and minimal formal training	
<ol style="list-style-type: none">1. MD or DO or MBBS.2. Completion of an ACGME, AOA, Royal College of Physicians and Surgeons of Canada, or Professional Corporation of Physicians of Quebec approved anesthesia residency program.3. Current certification or active participation in the examination process -- with achievement of certification within 5 years -- by the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology.4. Completion of a fellowship in Chronic Pain Management; Or One year of documented experience in treatment of chronic pain conditions.	
Required documentation and experience	
NEW APPLICANTS: <ol style="list-style-type: none">1. Provide documentation of the number and types of cases performed in the past 24-months; Or Provide contact information for (1) the anesthesiology or surgery chair from applicant's primary hospital and (2) a physician peer whom the credentialing specialist may contact to provide an evaluation of your clinical competence to perform the privileges requested; <p>Name: _____ Name: _____</p> <p>Name of Facility: _____ Name of Facility: _____</p> <p>Address: _____ Address: _____</p> <p>Phone: _____ Fax: _____ Phone: _____ Fax: _____</p>	
REAPPOINTMENT APPLICANTS: <ol style="list-style-type: none">1. Provide documentation of caring for at least 50 patients with chronic pain conditions during the past 12-months; Or Provide contact information for a physician peer whom the credentialing specialist may contact to provide an evaluation of your clinical competence to perform the privileges requested. <p style="text-align: center;">Name: _____</p> <p style="text-align: center;">Name of Facility: _____</p> <p style="text-align: center;">Address: _____</p> <p style="text-align: center;">Phone: _____ Fax: _____</p>	

Core Procedure List — Anesthesiology Clinical Privileges

To the applicant: If you want to exclude any procedures, please strike through those procedures you do not wish to request.

This list is a sampling of procedures included in the core. This is not intended to be all-encompassing but rather reflective of the categories/types of procedures included in the core.

Adult Anesthesiology (patients 16 years and older)

1. Assessment of, consultation for, and preparation of patients for anesthesia
2. Clinical management and teaching of cardiac and pulmonary resuscitation
3. Diagnosis and treatment of acute pain
4. Evaluation of respiratory function and application of respiratory therapy
5. Image guided procedures
6. Management of critically ill patients
7. Monitoring and maintenance of normal physiology during the perioperative period
8. Perform history and physical exam
9. Relief and prevention of pain during and following surgical, obstetric, therapeutic, and diagnostic procedures using sedation/analgesia, general anesthesia, regional anesthesia
10. Supervision and evaluation of performance of personnel, both medical and paramedical, involved in perioperative care
11. Supervision of Certified Registered Nurse Anesthetists
12. Treatment of Patients for pain management (excluding chronic pain management)

Pediatric Anesthesiology (patients under 16 years)

1. Consultation for medical and surgical patients
2. Image guided procedures
3. Interpretation of laboratory results
4. Management of both normal perioperative fluid therapy and massive fluid or blood loss
5. Management of children requiring general anesthesia for elective and emergent surgery for a wide variety of surgical conditions, including neonatal surgical emergencies, cardiopulmonary bypass, and congenital disorders
6. Management of normal and abnormal airways
7. Mechanical ventilation
8. perform history and physical exam
9. Pharmacologic support of the circulation
10. Placement of venous and arterial catheters
11. Preoperative assessment of children scheduled for surgery\
12. Recognition, prevention, and treatment of pain in medical and surgical patients
13. Sedation or anesthesia for children outside the operating room, including those undergoing radiologic studies and treatment and acutely ill and severely injured children in the emergency department
14. Temperature regulation

Adult Cardiothoracic Anesthesiology

1. Anesthetic management for patients undergoing minimally invasive cardiac surgery and for congenital cardiac procedures performed on adult patients
2. Anesthetic management of adult patients for cardiac pacemaker and automatic implantable cardiac defibrillator placement, surgical treatment of cardiac arrhythmias, cardiac catheterization, and cardiac electrophysiologic diagnostic/therapeutic procedures
3. Anesthetic management of adult patient undergoing surgery on the ascending or descending thoracic aorta requiring full CPB, left heart bypass, or deep hypothermic circulatory arrest

4. Anesthetic management of patient undergoing noncardiac thoracic surgery
5. Image guided procedures
6. Manage intra-aortic balloon counterpulsation
7. Management of nonsurgical cardiothoracic patients
8. Management of patient s with left ventricular assist devices
9. Managing adult cardiothoracic surgical patient in a critical care (ICU) setting
10. Perform history and physical exam
11. Transesophageal echocardiography

Obstetric Anesthesia

1. All types of neuraxial analgesia (including epidural, spinal, combined spinal and epidural analgesia) and different methods of maintaining analgesia (e.g., bolus, continuous infusion, patient-controlled epidural analgesia)
2. Anesthetic management of both spontaneous and operative vaginal delivery, retained placenta, cervical dilation and uterine curettage, postpartum tubal ligation, cervical cerclage, and assisted reproductive endocrinology interventions
3. Consultation and management for pregnant patients requiring nonobstetric surgery
4. General anesthesia for cesarean delivery
5. Image guided procedures
6. Interpretation of antepartum and intrapartum fetal surveillance tests
7. Perform history and physical exam

TO BE COMPLETED BY APPLICANT: I agree to supply Regions Hospital Credentialing Office (or designee) with all of the information being requested of me for the privileges I am applying for. I understand my application for privileges will not proceed until the information is received.

Signature

Date

TO BE COMPLETED BY REGIONS HOSPITAL DIVISION/SECTION HEAD AT TIME OF REVIEW AND APPROVAL: I have reviewed and/or discussed the privileges requested and find them to be commensurate with this applicant's training and experience. I recommend this application proceed.
